### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

This communication is an Examiner's reasons for allowance in response to application filed on 08/01/2003, assigned serial 10/632,871 and titled "Electronic guide System, Contents Server for Electronic Guide System, Portable Electronic Guide Device, and Information Processing Method for Electronic Guide System."

The following is the Examiner's statement of reasons for the indication of allowable subject matter:

The examiner is currently finding that the applicant's arguments filed 11/29/2010 are persuasive. The examiner has realized the application is patentably distinct from the cited prior art. The prior art are not deemed strong to make the application unpatentable.

Although the Wilcock et al.'s invention is a prior art closet to the subject matter of claims 2, 8, 11, and 29 which require "displaying, on a same screen display, the map and, independently from and without being affixed to the map, user created information entered by the user during the tour while the user was located within the area to which the map corresponds and selectable from the screen display to affix to the map." It is found that neither Sagie (U.S 2002/0091793 A1) nor DeLorme et al. (U.S. 5948040 A) discloses or suggests the mentioned features. In the referenced to Wilcock et al., specially in figure 6, a display comprises a map which is displayed in the map area (61), a left and a right margin areas (62A, 62B), an upper and a lower control bar, wherein a thumbnail (63) of each new photo, shown in either the left or right margin areas or both areas, and lead lines (65) connect each thumbnail (63) to a corresponding marker (64)

Art Unit: 3663

showing on the map. In Wilcock et al, the Group Control (68) is used to create groups of photo, and a photo to be assigned to one or more groups, the group itself is not user created information entered by the user during a tour while the user was located within an area to which the map corresponds and selectable from the screen display to affix to the map, as required by the claimed invention.

For at least the reasons set forth above, the current claims 2, 3, 8, 9, 11-13, and 26-29 are set in a condition for allowance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan C To whose telephone number is (571) 272-6985. The examiner can normally be reached on from 8:00AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Keith can be reached on 571-272-6878.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
